

# Perth Transport Futures Project

## Phase 1 - A9/A85 Junction Improvement and Link Road to Bertha Park

### PUBLIC NOTICE

#### A9 TRAFFIC MANAGEMENT INFORMATION

Balfour Beatty is currently constructing the A9/A85 Junction Improvement and Link Road to Bertha Park scheme on behalf of the Council. This project includes construction of a new A9 junction with slip roads, a new link road to Bertha Park and a new junction on the A85.

Overnight works will take place for 3 nights between 7pm to 6am each night to allow road line painting and signage installations and we would like to confirm the A9 lane restrictions and slip road closure that will be taking place to facilitate these works.

26 – 29 November 2018	A9 northbound and southbound down to one lane between Inveralmond and Broxden roundabouts.
28 – 29 November 2018	A9 southbound off slip road to A85 closed. Follow diversion* to Broxden roundabout and take the A9 northbound off slip road to A85 Crieff Road.

\*Diversion routes are shown on the reverse of this Notice for your convenience.

Balfour Beatty and Perth and Kinross Council are committed to minimising the disruption to the travelling public, residents and local businesses caused by the ongoing road works associated with the above project, and to providing advance notice of specific works.

We thank you in advance for your patience and take this opportunity to apologise for any inconvenience caused during these works.

Details of the proposals and the associated works can be viewed on the project website at [www.perthtransportfutures.co.uk](http://www.perthtransportfutures.co.uk).
